(54) MATERIAL DATA PROVIDING SYSTEM, MATERIAL DATA PROVIDING DEVICE, MATERIAL DATA ACQUISITION DEVICE, MATERIAL DATA PROVIDING METHOD, RECORDING MEDIUM, AND PROGRAM

(57)Abstract:

PROBLEM TO BE SOLVED: To save labor hour of a user engaged in designing a metal product as much as possible by computerizing automated provision of material data.

SOLUTION: A user terminal 101 includes a transmission function 402 transmitting material data acquisition conditions to a server computer 102, and a reception function 403 receiving a material data file corresponding to the acquisition conditions, and a server computer 102 includes a database 111, a reception function 502 receiving the acquisition conditions, a selection function 503 selecting material data corresponding to the acquisition conditions from the database 111, a data file preparation function 504 preparing a material data file based on the selected material data responding to users request, and a transmission function 505 transmitting prepared material data file to the user terminal 101.

## LEGAL STATUS

[Date of request for examination] 17.12.2004

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's  
decision of rejection]

[Date of extinction of right]
